

# UK/BPIF ISO 12647/2 2004 Amd 1 2007-Certification

**Paul Sherfield**

**THE MISSING HORSE CONSULTANCY LTD**

# What is ISO Certification?

- The current position, there is NO ISO 12647 certification as understood in the UK
- What is available now?
- Fogra, Ugra and PSO accreditation
- Accreditation is not ISO certification as understood by UK clients

# BPIF/UK ISO 12647/2 & 7

## Certification Working Group

- What is it?
- What is UKAS?
- The working groups aims.....

# Aims

- To accredit UK printers to ISO 12647/2 formally under an agreed methodology and using an accreditation organisation that themselves are UKAS accredited.
- To ensure the certification is meaningful, understood and valued by printers, and as importantly, by their clients.
- The system must be based on more than a yearly audit 'snapshot' of a printers ability to match to ISO 12647/2. A recording and self validation method must be part of the process and audits.
- The BPIF/UK ISO 126472 certification includes ISO 12647/7, and colour managed workflows, PDF and pre-flighting systems.

# BPIF/UK ISO 12647/2 & 7

## Certification Working Group

- What is it?
- What is UKAS?
- The working groups aims
- Implementation
- Time scale

# Some details.....
