# A FEW DAYS LEFT TO APPLY TO THE 2022 YOUNG TALENT AWARD!

**The deadline for applications for the 2022 Young Talent Award is coming soon! If you are a young student, apprentice, or worker active in the printing industry, this is the right opportunity for you. It is essential to listen to the voice of the next generation. Have your say!**

The 2022 Young Talent Award is a platform for the next generation of print professionals to share their ideas within the industry. With the Young Talent Award, Intergraf aims to foster stronger links between the printing industry and its future workforce, encouraging innovative ideas and creative solutions.

Every year, the most outstanding submission is selected by a panel of experts, and the winner is awarded **a prize of EUR 3,000**. The selected entry will be shared with representatives from printing associations, printing companies and suppliers of the industry. Although there can only be one winner, the top submissions will be made public on our website.

This year the focus will be on **sustainability**. Candidates for Intergraf's 2022 Young Talent Award are requested to submit their views on the following questions:

- 1. How do you see print products (graphics and packaging) in the circular economy?**
- 2. What is your vision for print for a sustainable future?**
